—MANUFACTURE SINCE 1990—

FAMILY OWN ENTERPRISE
Focus On Professional Powder Coating System Solution

★★★★★

-ABOUT US-

The factory covers an area of 10,000 square meters and employs more than 80 people. The company has passed ISO9001 quality management system certification, ISO4001 environmental management system certification, and ISO18000 occupational health and safety management system certification.

DESIGN → PRODUCTION → INSTALLATION → AFTER-SALES SERVICE

-OUR STAFF-

Hanna get a strong team to rock your core, including coating system designers, powder and chemistry experts, control systems engineers, installation technicians and experienced trainers. With Hanna's powerful team support, you would not have to worry.

QUALIFICATION HONOR

OUR CERTIFICATE

–DEVELOPMENT HISTORY–**1990**

Zhongyuan Coating Machinery Research Institute established.

2000

Zhongyuan changed name to Zhanyao Company.

2010

Zhongyuan changed name to Zhanyao Company.

2014

The export department is established.

2016

We are rated as high-tech enterprises of Hebei Province.

2018

Apply for more than 80 authorized patents on metal surface treatment industry.

2020

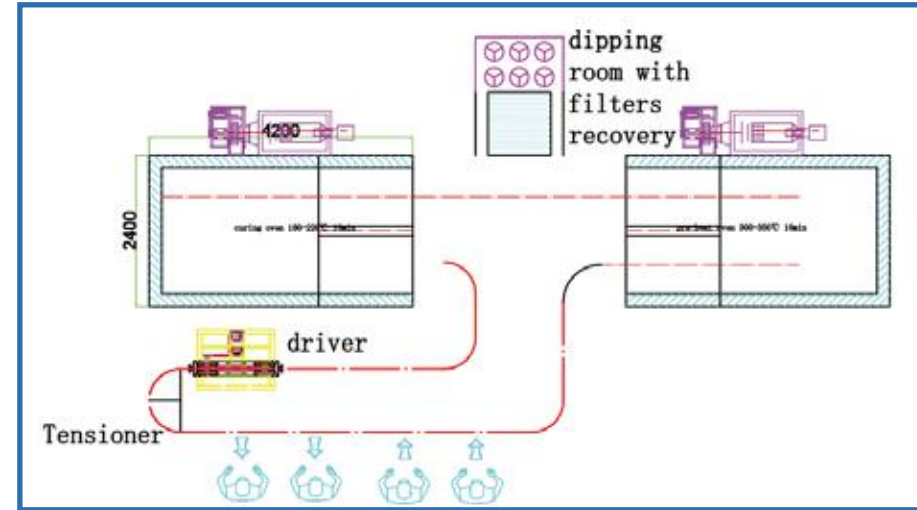

Awarded as intelligent plant by the government.

2021

By 2021, Our equipment has been exported to more than 30 countries and more than 10 projects with more than 1 million dollars.

The power and free overhead conveyor system is also called the power and free conveyor. This system can transport and temporarily store workpieces on the conveyor line, to prevent the workpiece from continuing to be transported, and adjust the piece space and movement of workpieces. The items to be transported should not be too small. Gravity roller wheel and rollers are the cheapest and simplest storage conveyors commonly used.

Hanna

Power And Free Overhead Conveyor System

Automatic lift system for loading and unloading
Buff zone for workpiece storage and cooling
Fast and low chain speed transfer
automaticly Workpiece scanning system
